ELMOSOFT è una pelle semi-anilina, morbida e flessibile. La sua morbidezza associata alla sua robustezza e ad una vasta gamma di colori disponibili rendono la pelle Elmosoft adatta ad un utilizzo nel contract. Punture di insetti e cicatrici visibili contribuiscono a valorizzare le caratteristiche di unicità ed eleganza di questa pelle.

ELMOSOFT is a soft and pliable Semi-Aniline leather. Outstanding comfort combined with excellent durability and an extensive shade card, makes it very suitable for the public environment. Visible insect-bites and scars from healed wounds add to the elegant quality of the leather.

ELMOSOFT. Weiches, geschmeidiges Semi-Anilinleder, Ein sehr strapazierfähiges und im Griff komfortables Leder in reicher Farbauswahl, hervorragend geeignet für Objektausstattungen. Sichtbar erhaltene Insektenstiche und kleine vernarbte Wunden betonen die naturechte Eleganz.

Elmosoft est un cuir semi-aniline, souple et doux. Son confort élevé, associé à une grande robustesse et à vste gamme de coloris disponibles, le rend particuliarement indiqué pour les collectivités. Les piqures d'insectes et les cicatrices visibles contribuent à rehausser le caractère élégant du cuir.

ELMOSOFT es una suave y flexible piel semianilina. Su destacable confort combinado con excelente durabilidad y una amplia carta de colores, la hacen muy adecuada para ambientes pùblicos. Picaduras de insectos visibles y cicatrices de heridas muestaran la elegante calidad de la piel.

Maintenance advice

Table-tops and seat panels/shells made of wood, polypropylene, polyethylene or polyurethane
May be cleaned with a damp, soft cloth or sponge using lukewarm water. Neutral diluted detergent may also be used in lukewarm water. Strong detergents which contain bleach or which have an abrasive effect (such as scouring creams) should be avoided at all costs.

Laminate surfaces
May be cleaned with strong products such as normal detergents for domestic surfaces diluted in lukewarm water, provided that they are not abrasive and do not contain acids or bleach. Avoid sponges and scourers made from synthetic fibres or metal which may leave permanent scratches on the surfaces.

Chrome, anodised or lacquered surfaces
May be cleaned with strong products such as normal detergents for domestic surfaces diluted in lukewarm water, provided that they are not abrasive and do not contain acids or bleach. Avoid sponges and scourers made from synthetic fibres or metal which may leave permanent scratches on the surfaces. The products must be properly rinsed so that traces of the detergents do not spoil the special finish by causing the surface to turn opaque or to oxidise. After washing, dry it with a chamois leather. Polishes for chromed or lacquered finishes are not recommended: they should be used with caution and only by experts since the abrasive action may irreparably damage the surfaces.

Fabric
May be treated using damp brushes, possibly with light detergent or vinegar, both of which should be very dilute. Alternatively, it can be drycleaned using appropriate products. For best care and maintenance results please follow the indications given by the ENI-EN-ISO 3758 symbols on the relevant fabric information sheet.

Hard leather grade 1, hard leather grade 2 and soft leather
Must not be cleaned with water as this may leave marks. It is better to use quality products for cleaning leather, carefully following the instructions of the manufacturer of the cleaning product. In case of doubt test the product on a small area which is normally hidden from view in order to check the result, waiting at least 24 hours to allow any possible problems to develop.

Stainless steel
Clean regularly (every 15 to 20 days) with a soft damp cloth or with special products for cleaning stainless steel available on the market.

Faux leather
May be cleaned with a damp, soft cloth using lukewarm water.
