# HIGH PERFORMANCE ERGONOMICS

**Spirit Air is the collection designed  
to ensure utmost ergonomics.  
Modern design combined to cutting-edge  
technology to satisfy any use  
and ensure the best performances.**

## THE MECHANICS OF COMFORT

Spirit Air features a dynamic synchro mechanism for adjusting the seat (up to 4°) and back angle, lockable in 11 positions with anti-shock system. The tilt tension can be adjusted by a practical side handle, according to the user's weight.

## ASSISTED MOVEMENTS

Spirit Air seat moves in tune with its user. Adjustable depth up to 50 mm of travel, lockable in the desired position, Spirit seat can also adapt to the user's movements with the option "free", activated with the second position of the lever.

## FREEDOM

Spirit Air was designed as an actual instrument to work in total freedom, ensuring utmost comfort. For this reason, "Freedom" was patented, a particular mechanism which allows perfect adherence of the back to the user's movements. This dynamic system consists of a thermoplastic rubber joint introduced inside a shell made in auxiliary resin that, working in constant torsion, naturally and precisely adapts to the body's rotation towards the right or left.

## COMFORTABLE AND BREATHABLE

Spirit Air seat features an ergonomic pad in flexible polyurethane, crushproof. The back in mesh is equipped with lumbar support with adjustable height to ensure proper posture.

## SIMPLY ELEGANT

Thanks to its linear and elegant shape and the wide range of upholsteries and finishes available in different colours, Spirit is also ideal for more complex spaces. Spirit Air is available in the classic version with shiny upholstery and in the trendier version with black finishes.

## AN ERGONOMIC COLLECTION

From the executive model with adjustable headrest to the manager and meeting versions: Spirit Air collection offers a wide range of products. Different types of armrests, bases and casters offer the possibility to choose the most suitable version for your needs.

## GREENGUARD CERTIFICATION

Spirit Air has achieved GREENGUARD Certification and GREENGUARD GOLD Certification.

GREENGUARD e GREENGUARD Gold are products' certifications released after accurate laboratory tests which assure a low level of chemical emissions of the GREENGUARD tested products in the inner environments. As a matter of fact, in the inner environments, the air is 2 - 5 times more polluted than on the outside and the pollutants comes from products and materials that we use every day. Therefore, the quality of air in the inner spaces is an important issue when people pass the most part of their time in inner environments.

The products certified GREENGUARD ensure a low level of chemical emissions, therefore a better quality of air in those places where they are used. Those chairs which obtained the GREENGUARD Gold certification grant the total absence of chemical emissions, then they are the safest choice for public spaces like schools and healthcare setting. The products certified GREENGUARD contribute to create Leed buildings.

For more information on GREENGUARD, visit the official web site [ul.com/gg](http://ul.com/gg).

## D.Lgs. 81/2008

Spirit Air comply with the italian norm D.Lgs. 81/2008.

## PCON.PLANNER

It is possible to configurate our model Spirit Air by using pCon.planner program for the design of 2D an 3D environment.

pCon.planner allows to design working solutions in a fast and intuitive way, creating "realistic" images with advanced features, with a considerable saving of time and resources.

It is easy to start using pCon.planner: after downloading the software in the proper page, it is possible to download pCon. catalog, the practical online catalogue of products ready to be set up according to anyone's need, and then include the products in the projects.

For more information on the use of pCon. planner and the access to the products of the SitLand's catalogues, please contact [com@sitland.com](mailto:com@sitland.com)

## MORE INFORMATION

Please look through our catalogue to see all the different versions available of Spirit Air
